# DIT signs MoU with Federal Polytechnic Kaduna on shared laboratory access

*Students gain rotational access to advanced spectroscopy and metallurgical analysis equipment.*

BY DIT COMMUNICATIONS OFFICE · 18 FEBRUARY 2026 · KADUNA

DIT and Federal Polytechnic Kaduna have signed a memorandum of understanding establishing reciprocal access to specialist laboratory equipment.

Students from DIT's Science & Laboratory Technology programme will gain rotational access to FPK's advanced spectroscopy and metallurgical analysis equipment; FPK students reciprocally gain access to DIT's foundry complex and PCB studio.

The arrangement is the first of several planned cross-institutional capability-sharing agreements between technical institutions in the Kaduna industrial corridor.
